

## 韌性城市的建立：基建、城市與法律學術研討會

### Conference on “The Establishment of a Resilient City: Infrastructure, Urban Planning and Law”

#### Purpose 目的

Macao has achieved 19 years of success in implementing the principle of “One country, two systems”. People’s livelihood has been improved continuously during these years. On the other side, Macao is also facing series of challenges, such as infrastructure problem, land supply problems, etc. The typhoon Hato swept into Macao last year, causing unprecedented loss of life and damage to infrastructure throughout the city, almost half of the city without water and electricity. Typhoon Hato teaches Macao a painful lesson that it is necessary to build up a system to manage disaster risk and the impacts of climate change, to build up a resilient city becomes one of the solutions. This conference aiming to identify the opportunities and challenges of the establishment of a resilient city and provide a platform for experts to conduct academic exchange.

澳門自回歸以來，經濟發展迅速，人均收入更躍升至亞洲前列。惟去年“8.23風災”卻暴露了澳門社會發展的問題，加強澳門基礎設施建設以及構建“韌性城市”便成為了澳門持續發展的重要課題。研討會邀請兩岸三地相關學者及專業人士進行學術交流，探討澳門如何構建“韌性城市”，推進社會和經濟可持續發展，深入分析並提出建設性意見。
